

# SPECS SHEET

## ALUMAX WORKER 33

Born from the needs of the Scheveningen harbor service, the Worker 33 is designed to retrieve floating objects with single-handed operation. Measuring 10m in length and 3,3m in width, this indestructible aluminum workboat offers precision control and durability.

### Key Features:

- Specialized design: tailored bow for cathodic protection inspection along steel sheet piling in harbors;
- Versatility: fully customizable to meet your specific requirements, including a self-draining cockpit and outdoor steering;
- Customizable: full boat is customizable to your needs and wishes.

With additional features such as a toilet, kitchenette, storage, seating for 6, and advanced navigation equipment, the Worker 33 is ready to tackle any task. What's your ideal configuration for the worker 33?
