

Bullit 660

Outboard

The Alumax Bullit 660 Outboard is an undisputed lightweight. The light aluminium tender has remarkably little draught and has excellent sailing characteristics and unprecedented stability. The Bullit 660 can safely remain in the water in winter and freeze if necessary.

Every Bullit that leaves the Alumax workshop, is manually welded. The technical installation and finishing are also purely handcrafted. One hundred percent Dutch top quality. Production is flexible, which allows us to deliver tailor-made solutions.

Standard version

V-bottom with spray rail, self-draining checker plate floor, double bottom with air chamber, foredeck with anchor locker, U-bench in the front of the boat with storage space, steering console with storage space and seat at the front, aft seat with storage space, aluminum railing and 4 bollards, integrated swimming platforms, trailer eye on the bow, anode on the underwater hull and solid rubber bumper.

All hatches are equipped with bolts, hinges and discharge chutes. The entire boat is welded from seawater-resistant aluminum and is delivered complete with owner's manual and CE mark.
